

Call from the Associazione Genitori Scuola Di Donato (parents' association of Di Donato school) to multicultural, antiracist and mutually supportive Rome: let's take to the streets to voice our dissent towards the "Sicurezza" Decree Law and immigration policies based on fear and discrimination.

For fifteen years we have been committed to promoting practices of inclusion and solidarity with children and their families, in a neighborhood historically open to all communities.

In the light of the most recent events we feel it necessary to state that we don't agree with measures that make our country inhospitable, ignore the most basic human rights and build up walls, feeding fear that turns into racist hate.

We cannot accept the closing of ports, we cannot watch silently while every day hundreds of people are at the mercy of the sea, destined for a horrible death.

This is the reason why we invite all citizens, all the open and supportive schools, all the migrant communities in Rome and the associations that work tirelessly in defense of their rights, to join us for a loud and colorful protest, where our voices can be heard and we can shout:

Roma Capitale Umana!!!

Piazza Vittorio Emanuele II

Sunday February 17th

From 10 a.m.
